Radin Jafari

(949) - 501 – 6333 | rjafari1@uci.edu | https://www.linkedin.com/in/radin-jafari/ | https://rjafari44.github.io/

SUMMARY

Electrical Engineering junior at UC Irvine with hands-on experience in PCB design, embedded systems, and robotics. Contributed to a top 20% University Rover Challenge Mars rover team; U.S. Citizen.

EDUCATION

University of California - Irvine — B.S. in Electrical Engineering
Irvine, CA | Expected June 2027

- Relevant Coursework: Network Analysis, Digital Logic, Electromagnetics, Signals & Systems, Electronics I, EE Analysis, Engineering Probability
- Activities: Zotbotics Robotics Club, IEEE Student Branch

Saddleback College — A.S. Physics, A.S. Mathematics
Mission Viejo, CA | June 2025

- Honors: AGS Honor Society, PTK Honor Society
- Activities: Saddleback College Robotics Club, Applied Science & Engineering Club, Astronomy & Physics Club

EXPERIENCE

SMART ITAC at UCI — Energy Efficiency Intern
Irvine, CA | Jan 2026 – Present

- Analyze water, gas, and electricity utility data to identify usage trends and cost-saving opportunities.
- Use Excel (formulas, pivot tables) to analyze and summarize facility energy usage.
- Develop sample industrial energy assessment reports with actionable efficiency recommendations.
- Participate in DOE-sponsored training and support preparation for upcoming on-site industrial assessments.

Zotbotics Robotics Club at UCI — Project Manager
Irvine, CA | Oct 2025 – Present

- Lead undergraduate teams building robotic arms, coordinating mechanical, electrical, and software systems.
- Provide hands-on support in soldering, wiring, and signal-level troubleshooting.
- Develop technical documentation and structured build guides to standardize assembly processes.
- Track project milestones and facilitate cross-team communication to ensure timely completion.

SEP Electronics Inc. — Electronics Technician
Mission Viejo, CA | June 2022 – Present

- Assemble and rework PCBs using Altium schematics, fabrication drawings, and manufacturing documentation.
- Build LCD systems by integrating circuit boards, enclosures, and interconnects.
- Fabricate custom wire harnesses to meet electrical and mechanical design requirements.
- Apply conformal coatings to improve environmental durability and reliability of boards.

Saddleback College Robotics — Electrical Subsystem Engineer
Mission Viejo, CA | Jan 2023 - June 2025

- Contributed to development of a Mars rover in the top 20% of 100+ teams at the University Rover Challenge (2024 & 2025).
- Designed a custom PCB interfacing an NVIDIA Jetson Orin with drive, science, and vision subsystems.
- Programmed Arduino microcontrollers to collect real-time motor diagnostics and support performance optimization.
- Assembled and validated wiring harnesses and power distribution systems for field deployment.

SKILLS & AWARDS

- **ECAD & Simulation:** Altium Designer, KiCad, LTspice
- **Hardware & Embedded:** ESP32, Arduino, Raspberry Pi, Linux
- **Programming:** C++, Python, MATLAB, Git
- **CAD & Tools:** Onshape, Microsoft Office
- **Awards**: Hagerty Family Osher Scholarship ($1.5k); University Rover Challenge Finalist (2024, 2025)
